

# governance and leadership

1 Document. 10 Priorities. 1 Direction.

## ***Key Messages for the Strategic Priority for Governance and Leadership...***

- Gwinnett leaders— from the School Board and superintendent to local school and central office administrators— are passionate about GCPS’ vision, mission, and goals, considering the Board’s beliefs and commitments in every decision that affects our students.
- Our leaders will lead by example, setting high standards for their own work and behavior.
- They will work continually to improve their own performance and will help others to increase their capacity as employees and leaders.
- GCPS leaders will promote a performance culture in which everyone knows how their work supports teaching and learning.
- Knowing that everything rises and falls on leadership, Gwinnett leaders will focus on results and value accountability as we pursue our vision of becoming a system of world-class schools.

## Strategic Priorities
